Clothes

- They are kind of important too! ;-)

The items listed are suggestions for making your room a home away from home.

Things to consider:

- Be mindful when choosing *adhesive tape* to adhere posters and pictures to the walls. Even small amounts can cause a lot of damage.
- Take care in how much *wall space* you utilize – If the wall has too many pictures and posters it can be a safety concern!

TIPS:

Be sure to contact your roommate(s) and/or suitemates to coordinate who will bring which item(s). *There is not enough space in the rooms for two or three of each of these things.*

Make sure to pack all your belongings in totes and label them with your name and room number. Loose items can easily be lost or misplaced during move-in.

You don't have to pack it all and/or buy it all right now. Bring the essentials and things that you can only get at home. Once you settle in, see what else you may need or have space for and consider buying some of those items later at a local store.
